

ANTENNA INFORMATION

A. Compliance to FCC 15.203 and 15.204(c).

Reference the attached pictures of the Antenna Board with this application.

- The User/Operator does not have access to the Antenna board. The Antenna Board is installed beneath the Laser System skins. A tool is required to remove both the skins and Antenna Board.
- The Antenna Board is a PCB Loop style antenna.
- The Antenna Board is connected to the RFID module via a 50 Ohm coax cable with a threaded SMA connector.
- The Antenna Board configuration, installation, and repair are strictly controlled by LenSx Lasers.

B. Single Antenna Board only: Manufacturer: SkyeTek, Model SP-AN-04-HF-CBLC.

M2 Module #SM-M2-MH-HF

Antenna Board with Coax cable #SP-AN-04-HF-CBLC
